

OPSWAT Academy Enterprise Subscription

Unlock the Full Potential of Your OPSWAT Products

Whenever a new solution is introduced into an environment, unforeseen challenges often surface. Effective adoption of new solutions can only be accomplished when facilitated by trained and competent staff.

OPSWAT Academy Courses included in an Enterprise Subscription cover basic to advanced management of OPSWAT solutions. Product expertise gained from our training can easily be applied to your specific environment and unique use case, even if they change over time.

Challenges of Managing a New Solution

- **Vulnerability issues** when converting from one security system to another
- Network or site alterations **leaving administrators unprepared**
- Not having **properly trained staff**
- Not being able to **utilize the full potential** of the product
- Inability to **troubleshoot issues**

Your Path Toward OPSWAT Product Mastery Starts Here

- Fully online -
No infrastructure requirements
- Learn at your own pace
- Accessible 24/7
- Get certified in days, not months
 - 1 Get Registered
 - 2 Select Your Product
 - 3 Complete the Courses
 - 4 Get Certified as an OPSWAT Product Expert

The Solution

Maximize the ROI of Your OPSWAT Products With Expertly Trained Staff

The award-winning OPSWAT Academy training platform provides robust educational resources for administrators of OPSWAT products. - 

Unlimited User Access
Distribute training resources to any staff member who could benefit
- 

Platinum Support Discount
Available to certificate holders

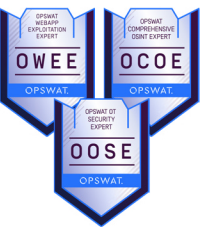

Unlimited Access to Our Associate, Expert and End-User Courses

Associate Course Programs

The Associate Course Programs provide essential cybersecurity knowledge and practical skills for protecting company environments and critical digital resources.

Additionally, these courses enhance understanding of the organization's security measures, which streamlines the adoption of new solutions and processes.

Expert Course Programs

These Course Programs offer advanced cybersecurity training, specifically focusing on Critical Infrastructure Protection [CIP].

Upon completing these specialized courses, graduates will be well-equipped to address the unique challenges associated with securing critical infrastructures and fulfilling the contemporary demands of the industry.

Professional Course Programs

These Programs are explicitly designed to equip system administrators with a comprehensive understanding of OPSWAT Products.

Upon completion, participants will possess the necessary skills and knowledge to fully leverage our Products, maximizing the security potential of our technologies and services.

End-User Guides

Our End-User Guides are specifically designed for users of OPSWAT Products.

Upon completing the Guides, participants will understand the Products' various features and applications in everyday scenarios.

Why OPSWAT Academy Enterprise Subscription?

Detailed Walkthroughs

Thorough and organized guidance on product deployment, maintenance, and administration.

Maximize Product Efficiency

Boost the effectiveness of active deployments and ensure high availability.

Simplified Change Management

Effective methodologies and strategies to meet change-management challenges.

Self-Reliance

Acquire skills to confidentially orchestrate product workflows and quickly remediate surfacing issues.

Support Continued Operation

Facilitate uninterrupted product operation or prepare for migration, planned outages, and upgrades.

Earn Certifications

The successful completion of the Enterprise Subscription will enable graduates to acquire OPSWAT Academy certification as certified product experts.

Get the Most Out of Your OPSWAT Product!

OPSWAT products are excellent at protecting digital assets, but their full potential can only be realized when paired with proper training. Our programs provide personnel with the necessary skills and knowledge to maximize the effectiveness of OPSWAT security solutions and protect your critical assets.
